

Item 16.g RANCHO MURIETA COMMUNITY SERVICES DISTRICT, Sacramento County

WASTE DISCHARGE REQUIREMENTS:

- Page 2 Revise Finding No. 7 as follows:
"This Order allows the reuse of recycled water at the Van Vleck Ranch for a limited term only (through **31 December 2009** ~~31 October 2007~~) in order to **be consistent with the easements as granted by the Van Vleck Ranch to RMCS D.** ~~comply with limitations imposed by Sacramento County...~~"
- Page 9 Revise Finding No. 47 as follows:
"...Subsequently, on **24 July 2007**, the Sacramento County Board of Supervisors approved the ~~75-day~~ Use Permit. The Use Permit is temporary and will expire **90 days after issuance, on or about 31 October 2007.** ~~on 31 October 2007.~~ **The Discharger intends to obtain a subsequent Use Permit that would be effective through December 31, 2009.** It is therefore appropriate **to require that the Discharger provide proof of the appropriate approvals from the County for any recycled water use that would occur after the expiration of the current Use Permit.** ~~that this Order expire on the same date.~~"
- Page 9 Revise Finding No. Finding 48 as follows:
"**RMCS D is the lead agency for purposes of CEQA. The Regional Water Board is a responsible agency with respect to CEQA.** On **19 July 2007**, RMCS D... Based on **features** mitigation incorporated into the project design, no water quality-related mitigation measures were **included in the Mitigated Negative Declaration.** ~~proposed.~~ Compliance with this **This Order requires compliance with** implements certain measures **and conditions intended** designed to minimize or prevent water quality impacts. However, ~~compliance with this Order does not necessarily mean that all applicable mitigation measures have been implemented.~~ RMCS D, as the lead agency, is responsible for ensuring compliance with all mitigation measures **identified in the Mitigated Negative Declaration.**"
- Page 11 Add new Discharge Prohibition No. 5 as follows:
"**The discharge of recycled water after 31 October 2007 is prohibited unless the Discharger submits proof that Sacramento County has issued a new Use Permit for the application of recycled water to the reuse areas described in this Order.**"
- Page 11 Revise Discharge Specification No. B.3 as follows:
"Hydraulic loading of recycled water and supplemental irrigation water shall... minimize the percolation of waste constituents below the root zone. **Recycled water shall be applied as described in Finding No. 17.**"
- Page 15 Add new Provision after F.1 as follows and renumber subsequent provisions:
"**Prior to any continued discharge after expiration of the current Use Permit, the Discharger shall submit proof that Sacramento County has issued a new Use Permit for the application of recycled water to the reuse areas.**"

- Page 17 Revise Provision F.12 as follows:
 "This Order expires on **December 31, 2009** ~~31 October 2007~~. The Discharger must ~~obtain a Conditional Use Permit and obtain new ...~~"

MONITORING AND REPORTING PROGRAM:

- Page 2 Revise the fifth row of the table in the *Reuse Area Monitoring* section as follows:
 "**Total** Dissolved Solids Loading Rate"
- Page 3 Revise the first paragraph of Section B as follows:
 "An Annual Report shall be prepared **as the twelfth monthly monitoring report** ~~after completion of the short-term recycling project in October 2007~~. ...The Annual Report shall be submitted to the Regional Water Board by 1 February ~~2008~~ **each year**."

INFORMATION SHEET:

- Page 1 Revise paragraph 2 as follows:
 "... Van Vleck Ranching and Resources, Inc. is not named as a co-discharger in this Order because the discharge will **not continue past 31 December 2009** ~~last no more than 75 days~~ and because RMCSD has agreed to accept full responsibility for compliance with this Order."
- Page 1 Revise paragraph 3 as follows:
 "Recycled water will be reused on approximately 90 acres of pastureland on the Van Vleck Ranch ~~for a period of no longer than 75 days that will end no later than 31 October 2007~~. Three separate reuse areas..."
- Page 1 Revise paragraph 6 as follows:
 "...The Sacramento County Board of Supervisors subsequently approved the ~~75-day~~ Use Permit. The Use Permit is temporary and will expire on 31 October 2007. ~~Therefore, this Order also expires on that date.~~"
- Page 4 Revise the last paragraph as follows:
 "...This Order does not require that the Discharger consider nitrogen from grazing cattle only because the discharge is limited to ~~75 days~~ **29 months**. Relief from this requirement does not set a precedent, and the requirement would likely be included in any long-term WDRs."
- Page 5 Revise paragraph 2 as follows:
 "Provisions **F.2 and F.13** ~~E.12~~
 In accordance with the Discharger's easement agreement, this Order expires on 31 December 2009, as set forth in Provision F.13. However, the owner of the reuse areas has obtained a Use Permit that allows the discharge through ~~for a~~

~~maximum of 75 days ending no later than 31 October 2007 only. Therefore,~~
~~Provision F.2 E.12 states that the Order expires on the same date, and requires~~
that the Discharger submit proof that it has obtained ~~obtain~~ a new Use Permit ~~and~~
~~new waste discharge requirements~~ if they wish to continue the discharge after that
date.”
